Diamond®

IODS RETAINING WALL

single unit
17.25" x 10" x 6" (tall)

No pins. No mortar. No misalignments.
Rear-lip locator makes installation fast and accurate.

The bold look and easy installation of the Diamond® 10DS retaining wall system have long made it the obvious choice for residential and light commercial wall projects. The rough-hewn face lends versatility to this landscaping tradition. The rear-lip locator provides uniform installation and reduces labor costs. The system is completed with a complementary cap unit.

- Gravity walls can be built up to 3 feet 6 inches high, including buried course
- Taller walls can be built using geosynthetic reinforcement or the Anchorplex™ retaining wall system when designed by a qualified engineer
- Minimum outside radius, measured on the top course to the front of the units: 2 feet
- Minimum inside radius, measured on the base course to the front of the units: 4 feet

CAP POSSIBILITIES:

XL™ CAP
tapered shape, (rough hewn, 2 sides)
FRONT: 18" x 13" x 3" (tall)
REAR: 12" x 13" x 3" (tall)

DIAMOND® UNICAP WALL CAP
rough hewn, 1 side
16" x 12" x 4" (tall)

COPINGSTONE
9" x 12" x 2.375" (tall)

Colors Available

Actual stone colors should be viewed by the homeowner before purchasing. All paver sizes are nominal and should be pre-measured when doing a job where exact dimensions are critical. Product dimensions are height by face length by depth. Actual dimensions and weights may vary from these approximate values due to variations in manufacturing processes.

FREQUENTLY ASKED QUESTIONS:

- Q:** Why does the 10DS now have cores?
A: Increased structural integrity and less contractor fatigue.
- Q:** Will the wall be as strong and just as functional with this product?
A: Yes! Increased strength with 57 stone in the cores.
- Q:** What is the greatest advantage of using the 10DS?
A: 10DS is 24 lbs. lighter per unit meaning less contractor lifting and increased productivity per day.
- Q:** How much 57 stone does it take to fill the cores?
A: .19 cubic feet per unit.
- Q:** Do I need to buy caps?
A: Yes. It is an NCMA Requirement which creates increased profit opportunities and is an aesthetically pleasing finished project.
