Low Voltage Lighting Solutions

Garden Wall & Retaining Wall

Low Voltage Lighting Solutions

- Each fixture is constructed of the strongest plastic polymers and is designed to interlock seamlessly with many segmental wall systems.
- Textured lens helps integrate with rock-like surface of most walls.
- Available in complete kits or in bulk contractor quantities.
- Products come with a limited 2-year warranty (exclusive of bulbs).
- Easy to install, visit our website at www.kerrlighting.com for complete installation instructions.
- Low voltage, safe, low operating costs.
