

BrikStone Colonial in 45° Herringbone

In addition to color, shape, and texture, paver patterns can impact the look and feel of your outdoor living space. Eagle Bay is providing the following patterns for our most popular pavers — while some designs are more modern, most are classics that have withstood the test of time. The patterns below are intended as a guide for preliminary pattern design only. It is the designer's or contractor's responsibility to verify and calculate the unit sizes and package quantities necessary to successfully execute the installation. Eagle Bay suggests you work with your installer to get the best results. View EagleBayPavers.com for more information and installation instructions.

I-PATTERN
(25% 6" X 6" + 75% 6" X 9")

CIRCLESTONE

9.35' DIAMETER

KINGSLAND, EPICSTONE, GRANDCAY & CHATHAM

There are no set patterns for these paver families. Some Eagle Bay customers have created patios by randomly picking and setting the stones in no particular order as they come off the cube. This can achieve a nice, natural look. However, even piece distribution is not possible when randomly selecting pavers, since selection is not based on a set pattern.
