CHATHAM MINI

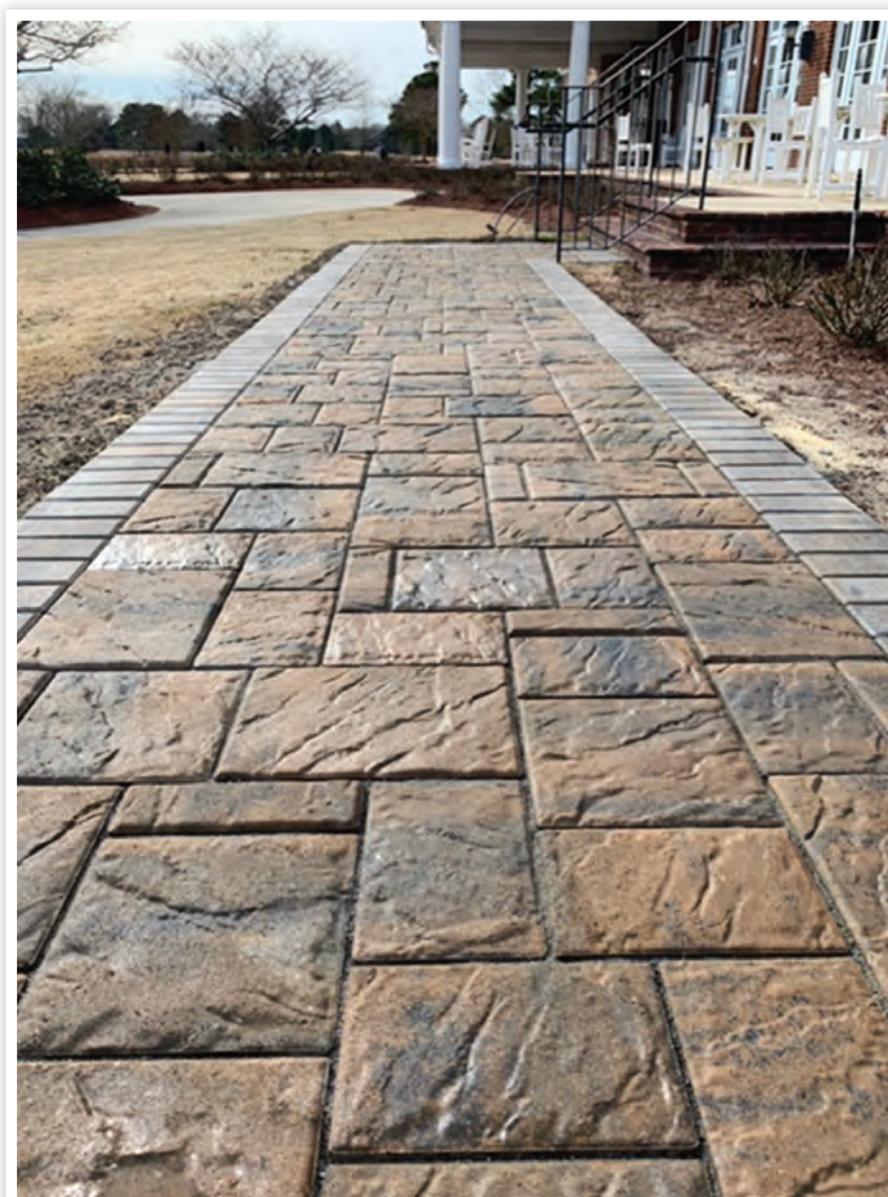

4 pieces, (2.375" tall):

9" x 13", 9" x 9", 9" x 6", 9" x 3"

PIECES per the cube	LAYERS per the cube	WEIGHT LB. per the cube	SQ. FT. per the cube
40; 120; 50; 30	10	3,280	112.5

Chatham Mini (4pc), available in a Natural Finish can be used separately for a driveway, or can be combined with Chatham Natural and Chatham XL into a multi-piece slab look to create an elegant tile-like surface for patios, walkways, and poolsides.

Chatham Mini is available in a variety of colors to suit your design needs. Visit our website: EagleBayPavers.com for color options and more inspiration.

PLEASE NOTE

Actual stone colors should be viewed by the homeowner before purchasing. All paver sizes are nominal and should be pre-measured when doing a job where exact dimensions are critical. Product dimensions are height by face length by depth. Actual dimensions and weights may vary from these approximate values due to variations in manufacturing processes.

FREQUENTLY ASKED QUESTIONS:

Q: CAN CHATHAM MINI BE USED IN ALL APPLICATIONS?

A: Chatham Mini can be used in all paver applications including driveways.

Q: IS CHATHAM MINI A PERMEABLE PAVER?

A: Yes. Chatham Modern and Natural also are. Chatham XL is not. Using a combo of Natural and XL is not.

Q: IS THERE A PATTERN FOR INSTALLATION?

A: There is no set pattern for Chatham Mini. It is a modular system to be installed randomly.

Q: WITH THE LARGER UNITS, DOES CHATHAM NEED TO BE INSTALLED DIFFERENTLY?

A: Chatham Mini can be blended on site with Chatham Natural and Chatham XL to create a 2pc, 3pc, 4pc, 5pc, 6pc, 7pc or 9pc.

IMPORTANT NOTE REGARDING CHATHAM MINI TAMPING

Pavers with dimpled or textured surfaces have high and low points on the surface which lend a more natural aesthetic appeal to the paver. These pavers are susceptible to surface scuffing when being compacted in place with plate compactors. Therefore, these paver types should always be compacted with a plate compactor that incorporates a protective mat or other medium between the plate compactor and the surface of the paver. These protect mediums include rubber matting, thin carpet, mirafi 500x or cardboard.
