Dublin™ Water Feature

FEATURES AND BENEFITS

• TUMBLED LOOK COMPLEMENTS ANY LIVING SPACE
• OPTIONAL COLOR-CHANGING SPILLWAY
• VERY DIY-FRIENDLY
Dublin™ Water Feature

WATER FEATURE KIT

Extend and enhance your outdoor entertaining season with our new Water Feature. The Water Feature Kit comes in a tumbled finish and is the perfect addition to any outdoor space. This easy-to-build kit includes everything you’ll need to build a beautiful Water Feature. Conveniently shipped on three pallets, our Water Feature can be used as a focal piece for your design or as an accent in a larger outdoor living space.

- Works with all styles—whether you are adding to an existing setup or starting anew.
- The size and weight of the block make installation easy, even for DIY’ers.
- Available in James River and Chesapeake.
- Available in Color-Changing or Stainless Spillway.

* Capping is in contrast to kit color

DUBLIN™ WATER FEATURE KIT*
126" wide x 53" deep x 38" tall
BEFORE YOU GET STARTED:

• Have a tape measure handy at all times.
• Lay block left-to-right or back-to-front instead of outside-to-in. Laying block outside-to-in will make it difficult to place the inner blocks.
• When unloading the pallet, place the removed block at two to three feet from the pallet, leaving a clear path on all sides of the pallet. This will ensure easy access to the pallet at all times. And if you want to make it extra easy on yourself, group alike blocks together for quick reference.
• Make sure the letters on each block face a connecting block so they are hidden.
• Once each course has been placed, make sure you tighten it up by using a rubber mallet on the edges.

INCLUDED IN YOUR WATER FEATURE KIT:

• All Blocks for Walls, Column Units and Basin, Water Feature Components and Caps (Coping Stone, Ring Caps and Wall Caps) that are needed for completion.
• Detailed, easy to follow, step-by-step manual with diagrams.
• Two pairs of Eagle Bay gloves.
• Two tubes of adhesive (where applicable).

NOT INCLUDED:

• Gravel for basin

PRODUCT USAGE / DISCLAIMER

We recommend a licensed electrician to run power to the backside corner of where your wall will be installed. Use an outdoor GFI outlet with 2 power sources and either mount it to a 4x4 post or wait and mount it directly to your wall.
