Others: dial (514) 523-8324 (Canada)

APPLICATIONS

• Pavers and other concrete surfaces

PROPERTIES

• Semi-transparent
• Rejuvenates surface
• Water based

DESCRIPTION

Made of acrylic, urethane and nanocrystal pigments, TECHNISEAL® NuLOOK TINTED PAVER PROTECTOR is a semi-gloss, microporous semi-transparent colored sealant that protects pavers made of concrete. It is perfect for rejuvenating older pavers that have lost some of their original colors. NuLOOK TINTED PAVER PROTECTOR is also ideal for changing the color of concrete surfaces such as pavers and poured concrete. It reduces oil and dirt penetration, and makes cleaning easier. Easy to apply, it penetrates the surface for maximum adhesion and durability. NuLOOK TINTED PAVER PROTECTOR will not peel or discolor. It resists the elements (freeze-thaw cycles, sun, rain, etc.), as well as calcium and salt. Water-based, NuLOOK TINTED PAVER PROTECTOR does not give off unpleasant fumes and is environmentally friendly.

DIRECTIONS

BEFORE YOU BEGIN:

Wear adequate protective clothing.

ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. to ensure the results will meet your expectations. Do not thin or dilute. Keep from freezing.

Apply only to bare material, to material that has been previously sealed with this product or with CLEAR-LOOK PROTECTOR [EV].

Recoating: Wait until the surface of the PROTECTOR is worn before recoating (minimum of 3 years).
Avoid product build-up: Excess recoating may eventually lead to whitening of the surface.
New concrete pavers: Efflorescence (whitish salt) may appear on such materials within 60 days following installation. Wait at least 60 days before cleaning and sealing. Applying a PROTECTOR before 60 days may cause blotchiness of the surface.

Newly installed polymeric sand on older pavers: Wait at least 30 days before cleaning and sealing pavers.

Slipperiness: This product can make the surface more slippery when wet. Avoid using where slipperiness represents a cause for concern (pool decks, slopped surfaces, steps, etc.).

Results will vary according to paver type, porosity and color. Proper surface priming is essential.

PREPARATION:

Stain remover: Remove any stains (oil, rust, etc.) from the surface using the appropriate TECHNISEAL® stain remover.

Priming: This step is essential to obtain an optimal and uniform result. Prime the entire surface by removing all efflorescence and ground-in dirt. This ensures a uniform look and allows the PROTECTOR to better penetrate the surface. Use TECHNISEAL® PAVER PRIMER/EFFLORESCENCE CLEANER for pavers with efflorescence or pavers less than 5 years old. Use Techniseal® HC HARDSCAPE CLEANER for surfaces without efflorescence or pavers more than 5 years old.

If surface is not uniformly porous (ie: repairs have been made), apply a coat of TECHNISEAL® Clear-look PROTECTOR (EV) before applying a single coat of NuLOOK TINTED PAVER PROTECTOR. Proper rinsing is essential.

APPLICATION:

- Surface must be clean, dry (24 hours without precipitation) and warm to the touch (morning).
- Joints must also be dry.
- Temperature must be between 50°F and 80°F and rain should not be forecasted over the following 24 hours.
- Sprinklers must be shut off.
- For optimal results, apply product under constant weather conditions and using the same application method from start to finish.
- Shake container or stir product before use.
- Protect surfaces that must not be treated such as concrete, walls, etc. Do not apply in windy conditions.

Roller application: Using a regular foam roller (non-slit) and a paint tray, saturate the surface with a coat of PROTECTOR.

Sprayer application: (recommended for optimal results): Soak the surface using an airless or pump sprayer.

For a more intense color, wait until surface is dry and apply a second coat. Once a section of approximately 150 sq. ft. has been rolled or sprayed, back-roll any excess PROTECTOR with a foam roller.

Stepping on freshly applied PROTECTOR could leave marks on pavers.

Let dry for 24 hours before walking on the surface and 48 hours before allowing traffic.

Note: If product is not applied uniformly or sufficiently, some blotchiness could be visible when surface is wet, but will disappear when dry.

CLEANING OF TOOLS: Use water and soap.

Cleaning yearly with TECHNISEAL® HC HARDSCAPE CLEANER will keep pavers looking fresh. Applying a thin coat of TECHNISEAL® Clear-look (EV) PROTECTOR every two years will keep the surface looking like new.

COVERAGE

1 gallon covers up to 150 sq. ft. per coat. Coverage will depend on the porosity and temperature of the treated surface. It is recommended that a small area be tested to determine the exact amount needed.

STORAGE and SHELF LIFE

Product must be kept in its original, unopened and tightly sealed container and stored in a dry and well ventilated place with controlled temperature (40°F to 75°F). Keep sheltered from weather and direct sunlight. Properly stored, the product’s shelf life is 3 years following production (see date on packaging).

**WARNING**

MAY CAUSE SKIN AND EYE IRRITATION. CONTAINS: Acrylic Polymers. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. KEEP OUT OF REACH OF CHILDREN. FIRST AID: In case of contact, immediately flush eyes and skin with plenty of water. If irritation persists, get medical attention. Calculated VOC: <100 g/L.

**SHIPPING**

Land and sea
NOT REGULATED

**LIMITED WARRANTY**

Manufacturer, having no control over the use of the materials, does not guarantee finished work. Replacement of any defective product shall be the buyer’s sole remedy under this warranty. A proof of purchase will be required for any claim. Before using this product, user shall determine the suitability of the product for its intended use and user alone assumes all risks and liability whatsoever in connection therewith. User shall test product in a small inconspicuous area (approx. 4 sq. ft.) under projected conditions of use. In the event that no test was carried out, the warranty will only apply to 4 sq.ft. (0.4 m²). This limited warranty excludes any liability for any consequential, incidental, indirect or special damages. Except for the limited warranty made above, manufacturer specifically disclaims and excludes any other express warranty, any implied warranty of merchantability of goods and implied warranty of fitness of goods for any particular purpose.
