

## Organic Stain Remover for Pavers and Slabs

### UPDATE

**March 14, 2010**

Make sure that you have an up-to-date technical data sheet in hand by consulting our Web site: [techniseal.com](http://techniseal.com)

U.S.A. and Canada: dial 1 800 465-7325

Others: dial (514) 523-8324 (Canada)

### APPLICATIONS

- Sealed or bare surfaces
- Pavers and slabs made of concrete or natural stone, poured or stamped concrete, masonry, etc.
- Driveways, pool decks, patios, terraces, commercial parking lots, pedestrian areas, etc.

### PROPERTIES

- Requires minimum scrubbing
- Effectively removes moss, mildew, dead leaves, wine, blood and non-greasy food stains
- Easy to rinse

### DESCRIPTION

TECHNISEAL® ORGANIC STAIN REMOVER is formulated to remove moss and mildew as well as tough organic stains such as dead leaves, blood, wine and non-greasy food stains on concrete pavers, slabs and walls, natural stone, poured or stamped concrete, etc. TECHNISEAL® ORGANIC STAIN REMOVER works without damaging or discoloring the material. It can safely remove the toughest stains. It is recommended for bare and sealed surfaces.

### DIRECTIONS

**Important: Wear adequate protective clothing. Will discolor clothing if spilled. To ensure the results will meet your expectations, always test the product on a small hidden area of approximately 4 sq. ft. Do not** mix product with other chemicals. Consult local authorities regarding the application of such products, waste management and run-offs. Do not apply under blazing sun. Never let ORGANIC STAIN REMOVER dry on the surface; keep it wet until it is completely rinsed off.

**WETTING VEGETATION:** To reduce the effect of ORGANIC STAIN REMOVER on vegetation, first saturate surrounding grass, shrub and plants with water.

**DILUTION:** Stain removal: Into a plastic watering can, dilute between 10 and 20 scoops of REMOVER in one liter of water. The amount of REMOVER to be diluted will depend on the stubbornness of the stain. Large surfaces: Into a plastic watering can, dilute the entire container (25 oz) of REMOVER in 7.5 quarts of water.

**APPLICATION:** Stain Removal: Apply a generous amount of diluted ORGANIC STAIN REMOVER on a stain. Let work 5-10 minutes. Scrub stain using a small TECHNISEAL® brush. Rinse thoroughly and let dry. Repeat if necessary. Large surfaces: Cover surface with diluted ORGANIC STAIN REMOVER. Scrub using a long-handled brush. Rinse thoroughly and let dry. Repeat if necessary.

## STORAGE and SHELF LIFE

Product must be kept in its original, unopened and tightly sealed container and stored in a dry and well ventilated place with controlled temperature (40°F to 75°F). Keep sheltered from weather and direct sunlight. In proper storage conditions, the product's shelf life is at least 2 years following production (see date on packaging).

## PACKAGING

Product Code	Retail Size	Pro Size	Units per box	Units per pallet
