(20) 14 x 12 Full Pieces
(4) 9.75 x 12 Cut Pieces #2
(2) 7.5 x 12 Cut Pieces #3
(2) 12 x 12 Cut Pieces #4
(Cut pieces will be marked)

PRODUCT USAGE / DISCLAIMER

COPINGSTONES: With kits that contain CopingStone, please see pages 16-18 for CopingStone item list and Courses 4 and 16. CopingStones are available upon request. CopingStones are not included in standard kits.

This fireplace is designed to burn solid wood, plumbed propane or natural gas only. Gas log appliances must be approved for outdoor use. Please obtain the proper permits in your local jurisdiction and make sure to comply with all building codes. This fireplace is not designed to be used indoors or in any framed wooden structure. It should not be placed next to or on any combustible materials. Do not fill voids with insulation or any other materials. This fireplace is not intended to be used for cooking food. Eagle Bay recommends using a grate centered in Burning Box for optimum burning performance. Do not stack wood against block walls while burning. Be aware that sparks can escape and ignite combustible surroundings. Do not over pack with wood.
HELPFUL TIPS BEFORE YOU GET STARTED

- Have a tape measure handy at all times.
- Lay block left-to-right or back-to-front instead of outside-to-in. Laying block outside to in will make it difficult to place the inner blocks.
- When unloading the pallet, place the removed block at two to three feet from the pallet, leaving a clear path on all sides of the pallet. This will ensure easy access to the pallet at all times. And if you want to make it extra easy on yourself, group alike blocks together for quick reference — A’s together, B’s together, etc.
- If you are using CopingStone, be gentle. It’s delicate and may break if handled too roughly.
- Make sure the letters on each block face a connecting block so they are hidden.
- Once each course has been placed, make sure you tighten it up by using a rubber mallet on the edges.
- Please contact our customer service team for questions and installation support. Toll Free: 1-800-321-9141

COURSE 1

Lay Full Block units (A) as shown. Square up your base so that it is 55 inches deep and 72 inches wide.
COURSE 2

Repeat Course 1

COURSE 3

Repeat Course 1
**COURSE 4 (FIREBRICK & STEEPELCREST CAP)**

*Please note — See page 17 for CopingStone instructions.*

Lay the SteepleCrest Cap on top of Course 3. The overhang on all sides of the fireplace should be about 2 inches. Once the Fire Brick has been placed, be sure to tighten up all of the edges to remove any gaps/spaces in the Fire Brick. It is recommended to lay all SteepleCrest Caps and Fire Brick to ensure proper placement before applying adhesive. Adhesive is required on this course.

**SteepleCrest Cap Pieces:**
- (12) 14 x 12 Full Pieces
- (4) 9.75 x 12 Cut Pieces #2
- (2) 7.5 x 12 Cut Pieces #3

(Cut pieces will be marked)
**COURSE 5**

Place the Dublin Block 1 inch inside the SteepleCrest Cap on all outer sides. Courses 5 - 11 should be 50 inches wide to ensure a proper fit.

**COURSE 6**

Place the Dublin Block 1 inch inside the SteepleCrest Cap on all outer sides. Courses 5 - 11 should be 50 inches wide to ensure a proper fit.
**COURSE 7**

Repeats Course 5

Front of Fireplace
FINISHING STEP

Stack 4 Half Blocks on the corners of the top of the fireplace and place the Flat Cap on top making sure to glue the Half Blocks to the chimney and then the Cap to the 4 Half Blocks.

Congratulations! Enjoy your Eagle Bay Fireplace!
PIECES INCLUDED IN KIT

*Please note — the dimensions listed below are approximate (have been rounded up / down) and may vary by a few fractions of an inch.

COPINGSTONES (unlabeled)

(12) 9 x 12 Full Pieces
(16) 9 x 12 Cut Pieces
(16) 9 x 9 Triangles
(4) 6 x 12 Full Pieces
(2) 5 x 12 Full Pieces
(2) 8 x 12 Full Pieces
COURSE 4 (FIREBRICK & COPINGSTONE)

Lay the CopingStone on top of Course 3 as shown below. The overhang on all sides should be about 1.5 inches. Be sure to pay attention to the various sizes of brick and CopingStone. Once the Fire Brick has been placed, be sure to tighten up the all the edges to remove any gaps / spaces in the Fire Brick. It is recommended to lay all CopingStone and Fire Brick to ensure proper placement before applying adhesive. Adhesive is required on this course.

CopingStone Pieces:
(10) 9 x 12 Full Pieces
(8) 9 x 12 Cut Pieces
(8) 9 x 9 Triangles
(4) 6 x 12 Full Pieces
(2) 5 x 12 Full Pieces
COURSE 16 (COPINGSTONE)

Lay CopingStone as shown and center on top of Course 15. The overhang on all sides should be about 1.5 inches. It is recommended to lay all CopingStone to ensure proper placement before applying adhesive. Adhesive is required on this course.

(2) 8 x 12 Full Pieces
(8) 9 x 12 Cut Pieces
(8) 9 x 9 Triangles
(2) 9 x 12 Full Pieces
Our goal is to make this process as easy as possible. Once you have an idea or vision in place, visit eaglebaypavers.com to look up a local dealer or to request a project consultation from an Eagle Bay representative. By contacting your local dealer, you'll be able to view product samples, compare product costs, and learn about qualified designers, contractors, and installers in your area.
**COURSE 5**

Place the Dublin Block 1 inch inside the SteepleCrest Cap on all outer sides. Courses 5 - 11 should be 50 inches wide to ensure a proper fit.

**COURSE 6**

Place the Dublin Block 1 inch inside the SteepleCrest Cap on all outer sides. Courses 5 - 11 should be 50 inches wide to ensure a proper fit.
